Recent UK projects include the redevelopment of a house in Knightsbridge and a basement and mansard extension of a pre-existing grade two seven-story house in St. James.

An Italian architect from Milan, Marco Braghiroli is the founder and managing director of Prestige Architects LTD. The London based architecture firm was established in 2009 and specialises in residential projects with a specific focus on development and prime private residential.

Prestige Architects has a strong design agenda which focuses on architectural design and construction for which a range of excellent professionals collaborate to fulfil the client's vision through a smooth process. The firm, which offers its services both in the United Kingdom and abroad, are highly acclaimed. They have won several awards and have been shortlisted multiple times for the International Design Awards.

Mr. Braghiroli studied architecture in Italy, obtaining the Laurea in Architecture at the Politecnico of Milan and also studied Interior Architecture at the University of Hasselt in Belgium and worked in the UK since 2001 with Traditional Architectural practices. After starting working in the UK, he discovered a passion for private residential projects in 2003. He has been a Chartered Architect since 2005 and is the architect of many luxury homes in the UK and abroad, delivering buildings which exceed expectation.

Over the past eight years, Prestige Architects has completed numerous high-end residential projects around the UK and abroad that offer sophisticated results. At the heart of every project, Mr. Braghiroli offers his expertise and brings to life his clients' luxurious visions, efficiently combining refined Italian design inspiration with British standards of project delivery.

Prestige Architects' key to success is the combination of attention to detail together with a reliable and experienced team of consultants who ensure that the delivery of each project reaches the high standards of the practice. Generating the majority of their business through loyal clients, Prestige Architects strive to meet the requests of the client which leads to clients returning time and again.

Their collaboration with a range of local experts when working on projects based abroad gives them an insight into local context and legislations and ensures the best results. International projects include holiday homes in Switzerland, and with exciting forthcoming projects including a house refurbishment and extension in the United States, yacht design in Asia and a luxury development in Africa, they continue to consistently push the boundaries of architectural design.
